

DG/KL/NSI 027 19

23 September 2019

To: All NSI approved companies

Dear Industry Colleague,

NSI EVENTS PROGRAMME UPDATE FOR YOUR CALENDAR

As part of NSI's mission to raise standards across the security and fire safety sector, we are pleased to announce our active participation in a full programme of industry events over the coming 12 months, providing regular touch points for approved companies to connect with NSI and the wider industry.

The NSI Summit has been successful in filling a void of events for approved companies. Over recent years, the events industry has stepped up and now provides a plethora of opportunities for approved companies to engage with us, suppliers and keep up to date with industry developments. We will therefore be re-focussing our efforts on NSI's presence at industry events delivering wider choice and added value to the NSI community, in preference to holding our own Summit.

'Save the date' in your calendar for one or more of the following events at which NSI will be present, and also share these dates with your colleagues.

- SiX, 5th - 6th November 2019 at EventCity, Manchester, targeting security systems installers and integrators.
- The OSPAs Thought Leadership Summit, 26th February 2020, Royal Lancaster London Hotel, targeted at senior leaders in the security services, systems and security sector.
- The Security Event, 28th - 30th April 2020, NEC, Birmingham, targeted at security and fire safety systems installers and their customers.
- IFSEC and FIREX International 19th - 21st May 2020, ExCeL London, targeted at security and fire safety systems installers and their customers.
- SecurityTwenty 20, various UK locations during 2020, targeting security systems installers, integrators and end-users.

Further details of NSI's participation at each of these events will be shared in due course.

Best regards,

A handwritten signature in dark ink that reads 'D. Gettinby'. The signature is written in a cursive, slightly informal style.
