

ML/KL/NSI 009 20

16 March 2020

**To: NACOSS Gold and Systems Silver approved companies**

Dear Colleague,

**PROMOTION OF YOUR APPROVED SERVICES – NSI COMPANY FINDER**

To improve the value of NSI approval for end users and approved companies, NSI is improving the functionality of the Company Finder on the NSI website.

Currently, Company Finder search functionality is limited to 'Approval scheme' and 'Approval level'. We recognise end users may wish to be specific in their search, identifying, for example, a company that offers 'Access Control'.

At your next audit after 1st April 2020, your auditor will discuss with you how your business's services should be represented on Company Finder. To facilitate any changes necessary, your Certificate of Approval will be updated accordingly.

Yours sincerely,

Max Linnemann  
Head of Certification Services
