ML/LW/NSI 022 20

22 May 2020

To: All NSI GOLD Services approved companies and applicants, including those with Passport

Dear Colleague,

NSI GUIDELINES FOR REMOTE AUDITING

We are pleased to enclose remote audit guidelines for your reference. These explain how NSI will determine your suitability for remote audits and the preparations necessary.

Typically, remote audit may be utilised, at NSI's discretion, for assessing 'Management System' requirements. It is not appropriate for assessing technical product standards.

NSI auditors are equipped to deliver both remote and on-site audits as required.

If you have any questions, you should discuss these with your NSI auditor in the first instance.

Yours sincerely,

Max Linnemann
Head of Certification Services
